RE: Docket # 97-462

Helen Helton
Executive Director
Kentucky Public Service Commission
Post Office Box 615
Frankfort, Kentucky 40602

Dear Helen Helton,

On or about January 6th I received a certified letter from SprintCom, Inc. expressing their intent to erect a 157 foot monopole at a location described as 819 Vine Street, Dayton, Kentucky. It is with that very intrusive structure in mind, I request that no such tower be erected at this sight. This neighborhood is not even a remotely applicable location for such a structure. A 157 foot tower jutting out of the landscape would be unsightly at least and do nothing for recovering property values. A structure such as this would be better suited at a less conspicuous location.

If SprintCom, Inc. deems the City of Dayton its most viable location for progress then it needs to listen to its citizens and not become intrusive. Dayton, I am sure has several equally viable locations for such a structure and non-the-least would be: City of Dayton or Bellevue's Public Work Departments, upper Maple Avenue near Belmont Lake, along the Ohio river east past the flood gates on Kentucky State Route 8, Sargeant's Park or Covert Run Pike (at this location the City owns approx. five acres across from the park). I am sure with the topography of the area one of these or another area can accommodate such a structure with out all the harmful and negative impact.

In closing I would like to thank you in advance for helping keep this intrusive structure out of our neighborhood and would very much like to be kept abreast of developments.

Cordially

Calvin F. Covey

RE: Docket No. 97-462

Dear Executive Director:

I am writing to express opinion regarding the proposed telecommunications facility in my neighborhood. I do not want this facility built in my community. There should be an immediate injunction to stop the progress of this facility.

Yours truly,

Karen Strickley
